

# Mini workshop on perovskite materials modeling within PoLLoC

28<sup>th</sup> April 10h – 12h

AMPHI GRANDJEAN, bât 10B, campus de Beaulieu, RENNES

**Tan NGUYEN**, *"A quick tour through the optical properties of lead halide nanoparticles"*

**Jacky EVEN**, *"Importance of the exciton fine structure and exciton lattice coupling in halide perovskite nanocrystals for light emission"*

**Marios ZACHARIAS**, *"Anharmonicity and electron-phonon coupling in metal halide perovskites"*

**George VOLONAKIS**, *"Excitons in vacancy ordered double perovskites, and interactions in layered perovskites"*
